“We wish we had outsourced this to Interbacs earlier. We started with administrating our own Direct Debit Collections since we became a DD originator in 2011. We did use to manually input lots of data and finding it really hard to deal with the reports from BACS as none of us were trained by BACS. Ever since Interbacs took over the administration of our collection, we only need to check our balance and check against our records to reconcile against their report. Goodbye stress!” Julie McDonald- Accounts Clerk.
