

About Interbacs

With more than **25 years** of combined industry experience, Interbacs is one of the long standing providers of bespoke end to end solutions for **Direct Debit**.

Interbacs provides software for organisations who manage their Direct Debit collection process in house. Our robustly designed and tested user-friendly DDMS 7 is widely used by organisations of all different sizes in various industries such as Education, Health and Fitness, Membership Institutions, Mortgage House, Charities and others. DDMS7's scalability, accessibility, security features, user-friendliness and its insightful reports are only a few that has made DDMS 7 popular.

Apart from the Direct Debit Management Software, we also provide the following software and solutions:

- InterPay Business
- InterPay Enterprise
- InterPay DDMS Integrated Version
- Interbacs Bureau Operation
- Interbacs Facility Management Service
- Interbacs Web Solutions
- Interbacs Paperless Direct Debit Module

Interbacs' Commercial Bureau Service and Facility Management Service take away the mundane day to day processing stress and enable your company's funds are collected through our InterPay DDMS software accurately and timely.

“Their technical ability, training and knowledge have always been second to none”
