

InterPay Series
InterPay Business
InterPay Enterprise
InterPay DDMS Integrated Version

InterPay is our BACS Approved Bacstel-IP software which deals with all your credit and debit submission needs.

It also has built in functions to download all your BACS reports and display them in meaningful formats for you to action.

“InterPay was perfect for our needs and we have been looking for simple and comprehensive software for all our BACS requirements and InterPay does exactly that”

George Walsh, Accounts, MTC Ltd

Interpay Series

Business, Enterprise, DDMS Integrated Version

InterPay Series is our BACs Approved Bacstel-IP software which deals with all your credit and debit submission needs. It also has built in functions to download all your BACS reports and display them in meaningful formats for you to action.

It allows companies to submit both credit and debit files to BACs securely and successfully at the same time allowing automatic downloading and importing of reports informing organisations any amendments, cancellations and unpaid direct debits.

Why should I get it?

User friendliness

InterPay is a user friendly and comprehensive Bacstel-IP software that is intuitive to set up and use. Messages will appear prompting you to take the next step when you have completed one, making it really easy to use, like you're working with a helping hand with you. The function can be switched off when you are familiar with the tasks.

Suitable to your size and requirements

InterPay Series comes with three packages suitable to individual business' collection and paying requirements. Consultant will go through your requirements with you the first time you select a suitable package and advice on the suitability of a particular package to your business requirements.

Highly configurable

InterPay is highly configurable and will integrate with all major accounts software making your collection and reconciliation easier. The InterPay DDMS Integrate Version enjoys features which will easily integrate with accounts packages, CRM, ERP programmes to ensure accuracy and avoid repetition of storage of customer data.

Scalability

InterPay is developed with scalability in mind and is future proof for new technology.

Excellent Training and Support

Installation and training are offered on the first time installation and support is carried out over the phone, online and face to face when required. Our friendly support staff will patiently go through areas where training is needed until you are satisfied with the system.

An Integrated Payments API

InterPay can be integrated with other payment technologies to suit your companies' payment requirements. An API interface is available to allow data input through web or other applications.

“We have used Interbacs InterPay-DDMS integrated version since day one and have found it so user friendly and comprehensive that it covers all our administration, managing and reporting requirements. We will definitely recommend the InterPay-DDMS integrated version to any company!”

The accounts team, Health and Fitness Club

How do I get it?

Speak to one of our sales consultants and they will figure out what you need to get set up and tailor a package to your budget and requirements.
